

## Guidelines for Poster presentation

Poster Session will be held on Thursday, November 27, from 13:00 to 14:30. We request you to present during the majority of session time to meet with conference participants regarding the content of your paper. If you are presenting several posters, please display a notice identifying the other posters that you are presenting, and/or times that you will be available to present each poster.

The posters are expected to adhere to the same high standards as oral presentation. That is, they should contain significant technical results and data together with their interpretation.

A poster board, together with pushpins or adhesive tape, will be provided in the poster presentation area. The boards will measure 1.8 m high x 1.2 m wide. However, we do not recommend you to use the lower half of the panels, that is, approximately 1.2 m wide by 0.9 m high for two A1 posters in portrait orientation to be displayed.

Because we will provide no title panel, the poster must include the “Title of the Paper” and “Author Names and Affiliations” in a large font size (25-30 mm in height for title; >15 mm for authors/affiliations) near the top of the display area. Use large fonts for all the text (>7 mm) and headings (>15 mm) so that the poster can be easily read at a distance of 1 m. Ensure that all figures can also be seen clearly at this distance.

The working language of the Symposium is English, and all poster display material and presentations must be in English.

The panels for the Poster Session will be available on Wednesday, November 26 afternoons. Posters are to be in place no later than 12:30 on Thursday, and must be taken down by 17:00.

Poster papers that have not been removed from the boards by the indicated times will be taken down and disposed.
