

40 years

OUR HISTORY - 40 YEARS
LOOKING BACK THROUGH PICTURES

HISTORY

On January 16th 2021, Toyota Technological Institute celebrated its 40th anniversary. As we reach a new milestone with the completion of the campus renovations last summer, we look back on our 40-year history.

May 1979 ▶
Eiji Toyoda, the president of the Toyota Motor Co., Ltd., became the founding Chairperson of Toyota School Foundation.

1979

April 1984 ▶ Establishment of the Graduate school Master's program

1984

March 1985 ▶
Completion of the new library and auditorium (Current West Building)

1985

1981

January 1981 ▶
Permission to establish the university is granted. TTI is inaugurated as Japan's first university for working people.

The campus when it first opened. Before the West Building was constructed, (where we currently have the Library and ICT & Network Center) there used to be a tennis court and a parking lot, and a pool was located near the North Building.

April 1981 ▶
Opening Ceremony of Toyota Technological Institute

Completion of the new Research and Experiment building (Current North Building)
